Notice Number: **BVSS5021**

Date Posted: **October 7, 2004**

Due Date for **5:00 pm on**
Comments: **October 15, 2004**

The Utah Procurement Code provides that a procurement may be made without competition when there is only one source for the required supply or service. Therefore, a "sole source" procurement is justified if there is only one product or service that can reasonably meet the state's need and there is only one vendor who can provide the product or service.

The Division of Purchasing has received a request to make the following sole source procurement.

Requesting Agency:

Utah Department of Environmental Quality, Division of Air Quality

Product and/or service to be purchased:

Thermo Environmental Model 17c Chemiluminescent Ammonia, NO, NO2, NOx Analyzer

Proposed Sole Source Supplier:

Thermo Environmental Instruments C/O Rust Automation

Sole Source Justification:

Requested instrument must analyze and report concentrations of NO, NOX, NO2, and NH3 in ambient air. Methodology for analyzing NO, NO2, NOX based on chemiluminescence technique which has reference designation for these parameters.

If for any reason any party does not agree with the proposed sole source procurement, please email **BRENDA VELDEVERE** in the Utah Division of Purchasing at **bveldevere@utah.gov** prior to the "Due Date for Comments" indicated above.
